ON THE FILM PREMIERE

[Typonexus: Silent Film Nouveau ft Tatsuya Nakatani](#) - a one-night-only happening - is a production one year in the making. It took many months to arrive to this perfect collaborative concoction. And the film (which had to be ordered from Europe and requires special equipment to screen it) took half a decade. Strikingly singular, enigmatic, innovative, provocative, exploring a wide range of visual techniques and dynamic visual motifs, the film delves into a profuturistic world wherein powerful immortals dabble with time and genesis. Abound in symbolism, profound in concept, executed with sheer mastery, this large-format premiere - accompanied by Tatsuya Nakatani's original live score - will leave you smitten... And afterward, it will be donated to [Scarecrow Video](#) for public access.

Thanks for supporting these rich cultural offerings!
